

Building Your AI-Ready Firm

You're ready to begin

You now have everything you need:

- ✓ The framework (5 principles)
- ✓ The guardrails (ethics, policy, checks)
- ✓ The skills (prompts, workflows, agents)
- ✓ The plan (90 days)
- ✓ The templates (policy, specs, checklists)

AI adoption is not about using the most advanced tools. It's about building structured, confident processes that turn capacity into value.

”

AI will not replace accountants. But accountants who use AI effectively will replace those who do not. The future firm is structured, agent-enabled, and led by human judgement.
